## New Zealand's greenhouse gas emissions, 1990 - 2018

**Title**  
New Zealand's greenhouse gas emissions, 1990 - 2018

**Publisher**  
New Zealand's Environment Reporting Series: The Ministry for the Environment and Statistics New Zealand

**Description**  
DATA SOURCE: Ministry for the Environment Adapted by Ministry for the Environment and Statistics New Zealand to provide for environmental reporting transparency Dataset used to develop the "New Zealand's greenhouse gas emissions" indicator [available at <https://www.stats.govt.nz/indicators/new-zealand-greenhouse-gas-emissions>] This indicator measures New Zealand's greenhouse gas (GHG) emissions in carbon dioxide equivalent (CO-e) units from 1990 to 2018. More information on this dataset and how it relates to our environmental reporting indicators and topics can be found in the attached data quality pdf.
