

Agricultural and horticultural land use, clean, 2002 - 2019

Title	Agricultural and horticultural land use, 2002 - 2019
Publisher	New Zealand's Environment Reporting Series: The Ministry for the Environment and Statistics New Zealand
Description	This indicator reports on the use of land for primary production purposes, specifically agricultural land uses, such as beef and sheep farming and dairying, horticultural land uses, such as fruit and berry, and vegetable growing, and other land uses, such as forestry. We do this for the period 2002 to 2019. More information on this dataset and how it relates to our environmental reporting indicators and topics can be found in the attached data quality pdf.
