

## Fertilisers, nitrogen and phosphorus, applied, 2002 - 2019

Title	Fertilisers, nitrogen and phosphorus, applied, 2002 - 2019
Publisher	New Zealand's Environment Reporting Series: The Ministry for the Environment and Statistics New Zealand
Description	This indicator measures the amount of nitrogen and phosphorus-based fertiliser (Urea, diammonium phosphate, superphosphate and ammonium sulphate) applied to agricultural land from 2002 to 2019 by region and dominant farm type. More information on this dataset and how it relates to our environmental reporting indicators and topics can be found in the attached data quality pdf.
