

Greenhouse gas concentrations at Baring Head, 1972–2016

Title	Greenhouse gas concentrations at Baring Head, 1972–2016
Publisher	New Zealand's Environment Reporting Series: The Ministry for the Environment and Statistics New Zealand
Description	We report on GHG concentrations in 'clean air' measured at Baring Head, near Wellington. These measurements give us a good idea of global concentrations and help us infer long-term impacts on ocean acidity, temperature, sea level and glaciers. More information on this dataset and how it relates to our environmental reporting indicators and topics can be found in the attached data quality pdf.
