## CAIT Country greenhouse gas emissions trends, 1990–2013

Title	CAIT Country greenhouse gas emissions trends, 1990–2013
Publisher	New Zealand's Environment Reporting Series: The Ministry for the Environment and Statistics New Zealand
Description	Data compiled are obtained from government reporting and complemented by a variety of non-governmental data sources. The trend was assessed using the Theil-Sen estimator and the Two One-Sided Test (TOST) for equivalence at the 95% confidence level. More information on this dataset and how it relates to our environmental reporting indicators and topics can be found in the attached data quality pdf.
