Environment
Manatū Mō Te Taiao

Change in farm size, 2002–16

Title

Change in farm size, 2002–16

Publisher

New Zealand's Environment Reporting Series: The Ministry for the Environment and Stats NZ

Description

The area of farms involved in agricultural activities, and how this is changing, is important because agricultural activities can affect soil health and water. Agricultural activities include beef and sheep, dairy, arable, horticulture, deer, pigs, and other livestock.
